Tech Treasure Hunt

Date & Time:	20-11-2025
Venue:	IOT Lab (C501)
Registration Fee:	Rs. 100
Team Size:	2-3

About the Event

• A thrilling modern quest where dusty maps are replaced by digital screens, and ancient keys are swapped for encrypted data streams.

• This game contains two rounds, each consisting of three levels.

• It merges exploration and puzzle-solving with technology.

• The 'treasure' might be software, a decryption key, or a hidden physical prize.

• Participants navigate challenges based on logic, coding, and networking principles.

• Success requires analytical skills, problem-solving, and mastery of digital domains.

Competition Guidelines

Organized by: Ledger Link IoT Security Society

1. Objective

The competition aims to encourage students to showcase their technical expertise, creativity, and problem-solving abilities in the domains of Cybersecurity and Internet of Things (IoT). It provides a platform to apply theoretical knowledge to practical challenges, promote innovation, and strengthen teamwork and analytical thinking.

2. Rules & Regulations

• Each participant or team must register before the deadline.

• Teams may consist of a maximum of 2-3 members.

• Participants must adhere to the time limits provided for each round.

• Use of unauthorized tools, plagiarism, or unfair practices will result in disqualification.

• All submissions must be original and relevant to the given topic or task.

3. Judging Criteria

• Innovation and Creativity

• Technical Implementation

- Relevance to the Theme

- Presentation and Communication

- Practical Application and Impact

4. Winning Criteria

Evaluation Basis: Winners shall be determined based on the overall performance, including both total points scored and time taken to complete the assigned challenges.

Scoring and Ranking: Points will be awarded according to the assessment parameters set by the organizing committee. In case of identical scores, the participant or team completing the task in a shorter duration will be ranked higher.

Final Decision: The final results will be declared after verifying both points and completion time.

Prizes & Final Results

Top 2 teams will receive: 1st and 2nd price
Total price pool :4500
